

FOUR POWERFUL NETWORKS. ONE PARTNER.

Powered by the combined strength of a multi-network solution, your fleet remains seamlessly connected 24/7, from offshore fields to coastal areas. Inmarsat offers the benefit of using a single trusted supplier to provide a high-speed, global connectivity service that ensures unwavering and reliable communication.

REDUCE OPERATIONAL COSTS AND BOOST ASSETS' COMPETITIVENESS

Make data-driven decisions to improve efficiency across the fleet

Receive seamless connectivity with an automatic band selection to operate more efficiently

No hidden costs, no throttling and no unexpected bills

With a managed service from one single supplier there is no need to buy VSAT and LTE separately - and administer changes yourself

CHARTERER PLANS

Charterer plans to enable customer to flex upwards when they have charterers on board

MAINTAIN CONSTANT CONNECTIVITY TO EFFICIENTLY CARRY OUT DAILY TASKS AND ALWAYS REMAIN CONNECTED TO THE SHORE

Suitable, reliable and high-speed connectivity for a growing range of apps and requirements

Always remain connected to the shore and take control of your vessel's data

Increase vessel operational efficiency by streamlining Data Collection and Analysis for Real-Time Monitoring and Control

Boost morale by providing a high-speed connectivity service to crew with the freedom to use their own devices
